

FENWARE MARINE OPS

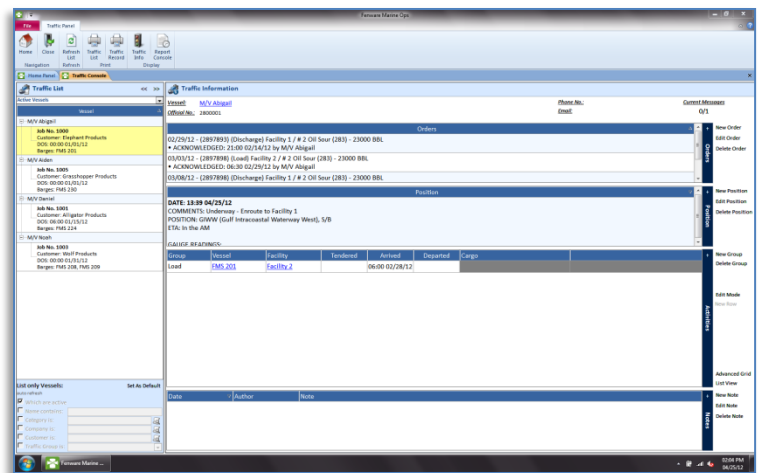

Fenware Marine Ops is a shored-based module custom tailored to fit the needs of both the brown water inland operators or the blue water offshore operators. This module includes vessel management, job management, traffic reporting, customer billing, and operational/governmental reporting (Examples: ExSTARS, Army Corps of Engineers, Waterway Taxes, Port Authority, Product Movements by State, Equipment Utilization, Equipment Status, etc.). This module also includes aspects of sales and marketing with the ability to track leads, create bids, and generate spot job contracts.

Fenware's Marine Ops application is industrial strength software which was designed specifically to meet the needs of the oilfield and marine industries. Our application was architected using Microsoft's flagship database products Microsoft SQL 2008 and Microsoft Office 2007/2010.

Running Your Business Is a Whole Lot Easier With Fenware Marine Ops

Fenware's Marine Ops application provides a robust and effective solution for:

- **VESSEL MANAGEMENT**
 - Track all relevant vessel information as well as related data such as notes, attachments, position logs, activity logs, and downtime logs.
 - Able to categorize vessels.
 - Able to search for vessels by status, category, vessel name, and company division.
 - Able to print entire vessel file.
 - Able to view and print vessel calendar.
 - Able to view and print equipment availability.
 - Able to view and print equipment status.
 - Able to view and print equipment utilization.
 - Able to view equipment mapping and historical tracking.
- **JOB MANAGEMENT**
 - Track all relevant job information as well as related data such as job details, equipment, orders, voyages, position logs, activity logs, downtime bank, notes, contacts, and attachments.
 - Configure job details for billing method, pump demurrage, lock demurrage, heater time, fuel, waterway taxes, and downtime.
 - Able to print entire job file.
- **TRAFFIC**
 - Capture and report traffic information such as equipment, current and future orders, vessel position, voyage activities, and comments.
 - Able to review and email traffic information.
- **BILLING**
 - Automated features to assist in customer invoicing using job based rules for billing of services, demurrage, heater time, waterway taxes, downtime, outcharter credits, and pass-through charges.
 - Able to propose invoices for supervisor review.
 - Able to print and email invoices.
 - Able to export invoices to third party accounting system.
 - Able to allocate invoice revenue to job equipment.
- **CUSTOMER / VENDOR / FACILITY MANAGEMENT**
 - Track all relevant customer, vendor, and facility information as well as related data such as notes, contacts, and attachments.
 - Setup facility alerts to be issued with orders.
 - Manage facility price quotes for items such as fuel.
 - Able to print entire customer, vendor, and facility file.

- **MARKETING AND CONTRACT GENERATION**
 - Track all relevant lead and bid information as well as related data such as billing method, products, proposed equipment, contract details and clauses, notes, contacts, and attachments.
 - Able to print spot job contracts.
 - Able to categorize corrective action requests.
 - Track percentage of bids awarded.
 - Automatically convert bids to jobs.
- **OPERATIONAL / GOVERNMENTAL REPORTING**
 - Print operational reports such as equipment status, equipment availability, equipment utilization, and revenue analysis.
 - Print governmental reports such as ExSTARS, Army Corps of Engineers, Louisiana R2, Port Movements, and Kentucky and Tennessee Waterway Taxes.
- **CUSTOM USER FIELDS**
 - Able to create new custom fields.
 - Can restrict custom fields to only be displayed for specific records or specified category of records.
- **CUSTOM FILTERING AND REPORTING**
 - Able to easily create custom filters and print reports based on your criteria.
- **USER CONFIGURABLE DASHBOARDS**
 - Select from a number of pre-defined dashboards to highlight critical operational data at a glance.

VESSEL OPERATION REPORT STATEMENT OF FREIGHT AND PASSENGER CARRIED
(Shallow Draft Inland Traffic)
(28 USC 21)

M/V Abigail #2800001

Public reporting burden for this collection of information is estimated to average 18 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the Department of Defense, Washington Headquarters Services, Directorate for Information Operations and Report Management and Budget, Paperwork Project, Washington, DC 20301-4052.

Full Security and Record Auditing

Fenware went through the pain-staking task of making certain that our personnel application meets the requirements of your management and security departments by including full data audit logging and administrator assignable user security. In other words, you can decide who has the ability to read, insert, update, or delete records within each section of the application. Furthermore, you can see by whom and when changes were made.

Who Is Fenware Development ?

Fenware Development, LLC is located within the heart of the southern commercial maritime and oilfield industries in Houma, Louisiana. Our team of developers has over 30 years of combined experience developing Microsoft Windows™ compatible software applications. We also have real world experience having worked as deckhands, yardhands, and slabhands for local marine and oilfield companies. Our successful track record of developing and implementing solid corporate software solutions make Fenware Development an ideal choice to assist your company in meeting its software needs.

Why Should I Do Business With Fenware ?

Fenware fully stands behind its products with a 90-day satisfaction guarantee plus our Fenware Bug-Free GuaranteeSM. What other software company is willing to give you this level of assurance?

So What's The Price ?

Fenware Development believes in forming long-lasting relationships with our clients; therefore, we are willing to work with you on different pricing and licensing options to meet your company's size and budget.
